

## Privacy Policy

Current as of: 27/03/2026

### Our Philosophy

The medical practitioners who work from the rooms at Kedron Wavell Medical Centre are a combination of employed GP Registrars and practitioners operating their individual businesses. These practitioners are committed to providing ongoing quality care to their patients. The practitioners believe in taking time to listen and collaborate with you to facilitate and coordinate your healthcare needs. Maintaining your long-term health and well-being is their priority and as part of their registration they are required to participate in ongoing professional education.

### Objective

The objective of this document is to provide you, our patient, with clear information on how your personal information is collected and used within the practice. Occasionally, we also need to share your personal information to involve others in your healthcare and this policy outlines when, how, and why we share your information.

### Who can I contact about this policy?

For enquiries concerning this policy, you can contact our Practice Manager via the below details:

Practice Manager

Phone: 07 3359 2160

Email: [manager@kwmc.net.au](mailto:manager@kwmc.net.au)

### When and why is your consent necessary?

When you register as a patient of this practice, you provide consent for the GPs and practice staff to access and use your personal information to facilitate the delivery of healthcare. Access to your personal information is restricted to practice team members who require it for your care. If we ever use your personal information for purposes other than outlined in this document, we will obtain additional consent from you.

It is important to us that as our patient, you understand why we collect and use your personal information.

By acknowledging this Privacy Policy you consent to us collecting, holding, using, retaining and disclosing your personal information in the manner described below.

### Why do we collect, use, store, and share your personal information?

The practice collects, uses, stores, and shares your personal information primarily to manage your health safely and effectively. This includes providing healthcare services, managing medical records, and ensuring accurate billing and payments. Additionally, we may utilise your information for internal quality and safety improvement processes such as practice audits, accreditation purposes, and staff training to maintain high-quality service standards.

### What personal information is collected?

The information we will collect about you includes your:

- names, date of birth, addresses, contact details
- medical information including medical history, medicines, allergies and adverse reactions, immunisations, social history, family history and risk factors
- Medicare number (where available) for identification and claiming purposes
- healthcare identifier numbers
- health fund details.

### Can you deal with us anonymously?

You can deal with us anonymously or under a pseudonym unless it is impracticable for us to do so or unless we are required or authorised by law to only deal with identified individuals.

### How is personal information collected?

The practice may collect your personal information in several different ways:

- When you make your first appointment, the practice team will collect your personal and demographic information via your registration form.

# KEDRON WAVELL MEDICAL CENTRE

- We may also collect your personal information when you visit our website, send us an email or SMS, telephone us, make an online appointment, or communicate with us using social media.

In some circumstances, personal information may also be collected from other sources, including:

- Your guardian or responsible person.
- Other involved healthcare providers, such as specialists, allied health professionals, hospitals, community health services, and pathology and diagnostic imaging services.
- Your health fund, Medicare, or the Department of Veterans' Affairs (if relevant).
- While providing medical services, further personal information may be collected via:
  - electronic prescribing
  - My Health Record
  - online appointments via AutoMed Systems.

Various types of images may be collected and used, including:

- Photos and medical images: These can be taken using clinic owned cameras reserved for taking clinical photos. They may also be taken on personal devices for medical purposes, following the guidelines outlined in RACGP's guide on using personal devices for medical images.  
<https://www.racgp.org.au/running-a-practice/technology/mobile-devices-to-support-care/using-personal-mobile-devices-for-clinical-photos>
- CCTV footage: There is a live feed CCTV of our carpark for security and safety purposes

We will always comply with privacy obligations when collecting personal information from third-party sources. This includes ensuring transparency with patients, obtaining necessary consents, maintaining data accuracy, securing the information, and using it only for specified purposes.

## When, why and with whom do we share your personal information?

We sometimes share your personal information:

- with third parties for business purposes, such as accreditation agencies or information technology providers – these third parties are required to comply with APPs and this policy. These services include AGPAL, Cubiko, AutoMed Systems, Care GP, MESI Medical and Primary Sense.
- with other healthcare providers (e.g. In referral letters)
- when it is required or authorised by law (e.g. court subpoenas)
- when it is necessary to lessen or prevent a serious threat to a patient's life, health or safety or public health or safety, or it is impractical to obtain the patient's consent
- to assist in locating a missing person
- to establish, exercise or defend an equitable claim
- for the purpose of confidential dispute resolution process
- When it is a statutory requirement to share certain personal information (e.g. some diseases require mandatory notification)
- When it is provision of medical services, through electronic prescribing, My Health Record (e.g. via Shared Health Summary, Event Summary).

Only people who need to access your personal information will be able to do so. Other than providing medical services or as otherwise described in this policy, the practice will not share personal information with any third party without your consent.

We do not share your personal information with anyone outside Australia (unless under exceptional circumstances that are permitted by law) without your consent.

## Will your information be used for marketing purposes?

The practice will not use your personal information for marketing any goods or services directly to you without your express consent. If you do consent, you may opt out of direct marketing at any time by notifying the practice in writing.

## How is your information used to improve services?

The practice may use your personal information to improve the quality of the services offered to patients through research, analysis of patient data for quality improvement and for training activities with the practice team.

We may provide de-identified data to other organisations to improve population health outcomes. If we provide this information to other organisations, patients cannot be identified from the information we share, the information is secure and is stored within Australia. You can let reception staff know if you do not want your de-identified information included.

At times, general practices are approached by research teams to recruit eligible patients into specific studies which require access to identifiable information. You may be approached by a member of our practice team to participate in research. Researchers will not approach you directly

without your express consent having been provided to the practice. If you provide consent, you would then receive specific information on the research project and how your personal health information will be used, at which point you can decide to participate or not participate in the research project.

## How are document automation technologies used?

Document automation is where systems use existing data to generate electronic documents relating to medical conditions and healthcare.

The practice uses document automation technologies to create documents such as referrals, which are sent to other healthcare providers. These documents contain only your relevant medical information.

These document automation technologies are used through secure medical software, Best Practice Software.

All users of the medical software have their own unique user credentials and password and can only access information that is relevant to their role in the practice team.

The practice complies with the Australian privacy legislation and APPs to protect your information.

All data, both electronic and paper are stored and managed in accordance with the Royal Australian College of General Practitioners [Privacy and managing health information guidance](#).

## How are Artificial Intelligence (AI) Scribes used?

Some of the doctors working from our rooms use an AI scribe tool to support GPs take notes during their consultations with you. The AI scribe uses an audio recording of your consultation to generate a clinical note for your health record. The AI scribes used in our practice include Medilit, Lyrebird Health, Heidi Health, MBSPro. Please confirm with your GP which platform they are using.

### Lyrebird Health

- does not share information outside of Australia
- destroys the audio file once the transcription is complete.

### Heidi Health

- does not share information outside of Australia
- destroys the audio file once the transcription is complete.
- removes sensitive, personal identifying information as part of the transcription

### Medilit
